**Conditions of approval:**

1. All sediment control work must comply with written requirements, the approved Sediment Control Plan, "Standards and Specifications for Soil Erosion and Sediment Control" and /or all violation notices, which may be issued by the Department.
2. The site, work, materials, plans, and specifications shall be available at all times for inspection by the Department.
3. The sediment control permit is subject to revocation or suspension whenever determination is made and after notice is given that the applicant is in violation of State and County sediment control laws or any rules and regulations promulgated under those laws. This includes conditions specified on the approved plan.
4. If the Department finds that the original sediment control plans are inadequate or inappropriate, then additional plans or modifications thereof will be required.
5. A grading permit must be obtained prior to start of any earthwork, construction, etc., within dedicated street right-of-ways.
6. Any temporary sediment basin or trap which will pond water in a pool greater than 9 feet in diameter and 18 inches in depth must be surrounded by permanent, semi-permanent or portable fences not less than 42 inches in height with openings not greater than three inches in width. This fence must be firmly anchored and constructed in a manner to prevent sagging and maintained in good condition.
